*Sustainable Architectural Design Exhibition by Meiji University, PAM etc.*

Department of Architecture, School of Science and Technology, Meiji University organized exhibition titled “RE/MIXED The Horizon of Sustainable Architectural Design of Malaysia and Japan” with its joint organizers, Malaysia External Trade Development Corporation (MATRADE) and Malaysian Institute of Malaysia (PAM) at Meiji University Museum (refer to the picture) in Chiyoda ward until September 29. Free admission.

The exhibition is introducing the “Environment-conscious, Sustainable Architectural Design (Green Architecture) in Malaysia and Japan,” in the related period of “UIA2011 Tokyo: The 24th Congress of World Architecture.”

Malaysia is reintroducing the “RE/MIXED” in the “Biennale Architettura 2010” in Venezia, here in Tokyo.

As a counterpart, the researchers and architects of the Department of Architecture of Meiji University are showing their own research and design works on sustainable architecture. The department will start the “International Professional Program on Architecture & Urban Design” from spring 2013 to promote more intensive international education on architecture and urban design in Japan.

In addition, on the final day of the exhibition, a symposium regarding sustainable architecture will be held. Architects and researchers from both countries will participate in this event and discuss their works and future approach to sustainable architecture. The symposium will be held at the hall on the second floor of Academy Common, Surugadai Campus of Meiji University.
